Due to our many years of experience and consistent ongoing training, we prepare special meals for our customers according to their personal needs and requirements. These special meals are available for all types of allergies, intolerances, metabolic conditions and for customers from different cultural backgrounds, who don't eat pork or beef, for example. In order to safely create wholesome anti-allergy meals, we require a medical certificate.

We supply our special meals with individual delivery notes in food compartment trays with name labels. Our special meals department creates a menu plan that is specifically tailored to the customer; they can choose from either a monthly or a weekly menu plan as required.

Using our special food, our dietician assistants prepare fresh and wholesome meals daily.

#### **Allergen information**

We would like to point out that during the complex flow of goods in food production (harvesting, transport, storage, production, packaging...) the possibility of crosscontamination and product transfer cannot generally be ruled out. It is therefore not possible for us to guarantee the complete absence of possible allergens in the regular food supply. If you are dependent on allergen-free food, we would be happy to refer you to our special food offer.
